

## ***Ways to Help Florida's Rivers***

**Support protection of river corridors and springs**

**Protect open land that recharges our aquifer**

**Minimize urban sprawl**

**Support stronger enforcement of pollution standards**

**Prevent pollution at its source**

**Adopt a stronger state fertilizer ordinance**

**Upgrade wastewater utilities**

**Replace or upgrade septic tanks in key areas**

**Control water consumption & adopt user fees**

**Join a river cleanup effort!**

**Practice Florida Friendly landscaping and**

**require it for new development**

**Wean ourselves from bottled water & throwaway plastics**

**Reduce water demand through conservation efforts**

**Become involved with a clean water group**

**Elect political leaders who truly care and educate them!**
